Dear Jennette,

Thank you very much for speaking at my first ever Summer School programme.

The students very much enjoyed hearing from you and learning from your expertise.

Thanks to your level of enthusiasm and interaction many students have expressed an interest in pursuing a career in politics. I am incredibly pleased to hear this, as it is imperative that we engage our young people in the political process and demonstrate that we value their political opinions.

I hope that there will be more opportunities for you to speak at a future event.

Many thanks,

*Catherine*
